

Call for Papers

The Canadian Journal of Music Therapy is still welcoming submissions for its next edition, volume 18, release in 2012. We are seeking articles on music therapy from a wide variety of perspectives and styles, from first time authors to seasoned veterans. Examples of possible articles include a case study, an interview, an historical perspective, a philosophy, the merging of an approach or theory within your work, as well as intersections between the sciences, the arts, and music therapy. We offer a manuscript development program to assist authors through the writing process.

The deadline is Monday December 5, 2011 though we welcome articles year round. The *Submission guidelines* are available in English at <http://www.musictherapy.ca/journal.htm#submit>. Email: cjmt@usask.ca and in French at <http://musictherapy.ca/fr/journal.htm> Courriel: revue@musictherapy.ca
